Lesson 22 (Extension or Alternative): Addressing Myths & Stereotypes Regarding People Living with HIV

Lesson 22a & Lesson 22b

These lessons can be used an alternative in case an HIV-positive speaker cannot present to the class (lesson #21) or it can be used as an extension lesson. Lesson #22a utilizes the MTV film, Think HIV: This is Me, and lesson #22b utilizes the MTV film, I’m Positive. The film in lesson #22a is shorter, allowing for more time for discussion. The film in #22b is newer, but much longer leaving very little time for discussion. Both films can be found online through the MTV website.
